Tamil — Native

English — Professional

PROFILE

Computer Science graduate with experience in **Software Testing** of web-based applications. Skilled in test case preparation, application functionality analysis, **bug identification**, and **defect reporting**. Currently learning **Playwright automation** using TypeScript.

TECHNICAL SKILLS

- **Testing Skills:** Manual Testing, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, Retesting
- **Testing Concepts:** SDLC, STLC, Defect Life Cycle, Test Case Preparation, Bug Reporting
- **Automation Testing:** Automation Testing: Playwright, TypeScript (Basic Knowledge)
- **Database:** MySQL (Basic Knowledge)

INTERNSHIP EXPERIENCE

Software Testing Intern
Techiedoods Solution Private Limited (August 2026 – November 2026)

- Analyzed application modules, understood end-to-end workflows, and tested functionalities across **CRM, Inai Response, Trace**, and other web-based applications.
- Designed, prepared, and executed **900+ test cases** based on functional requirements.
- Identified, documented, and reported **1,000+ defects** across various application modules.
- Performed **Functional, Smoke, Sanity, and Regression Testing** to validate application functionality.
- Evaluated existing features, identified UI issues, suggested enhancements, and verified bug fixes through retesting. Gained practical exposure to **Playwright automation using TypeScript**.

Web Designing and Development Intern
Excerpt Technology Pvt. Ltd. — Bangalore

- Developed responsive web pages using HTML5, CSS3, and JavaScript for user-friendly interfaces.
- Collaborated with team members to implement designs and maintain responsive layouts across devices.
- Improved webpage layouts, fixed UI issues, and ensured consistent design standards.

PROJECTS

Inai CRM – Customer Relationship Management Application

- Tested Leads, Customers, Sales, Quotations, and Approval modules.
- Validated role-based access, quotation approval workflows, and user permissions.
- Identified functional defects and recommended workflow improvements.

Inai Response – IT Service Management & Ticketing Application

- Tested ticket creation, assignment, linking, prioritization, and status management functionalities.
- Explored Admin Setup, including Users, Roles, Teams, and Settings, and validated SLA configurations.
- Examined Incident, Problem, and Change Management workflows, including ticket relationships and escalation handling.

Inai Trace – Field Force Tracking Application

- Tested Attendance, Targets, Visits, Orders, Approvals, and Employee Management modules.
- Validated attendance processes, approval workflows, and employee activity monitoring.
- Documented defects, proposed enhancements, and verified bug fixes.

Aqua World – Billing & Inventory Management Application

- Tested Billing, Stock Summary, Consolidated Report, Stock Transfer, and Stock in Transit modules.
- Validated billing calculations, stock levels, branch-wise inventory, and packing/conversion workflows.
- Verified billing data accuracy and stock movements across branches.
